RoHS – The Solution from Amphenol-Tuchel

Dear Ladies and Gentleman,

In this letter we would like to give you a brief overview of the Directive 2011/65/EU and its implementation in our company.

The Guidelines

The Guidelines 2011/65/EU (restriction of the market and use of certain dangerous substances) forbids the use, or more exactly the marketing of both of the halogenated flame retardents penta and Octa bromated Diphenylether.

These guideline is valid for all applications of these substances within the EU and have already been included into national legislation.

For more information, please visit <http://www.amphenol.de> at "Environmental Information – RoHS"

Our Statement

Because Amphenol-Tuchel Electronics has implemented many environmental policies for a long time, we do not use any substances which are forbidden by the 2011/65/EU directive, or to be more precise, we do not exceed any of the present given limits.

For further informationm, please visit www.amphenol.de under "Environmental Information".
